It's worth it for Halloween Head. Seriously. Straight up best boi material.. I love this game. Most otome games are like living a fairytale. Perfect men, perfect MC, perfect relationship with no hardships. Most of them are just plain unrealistic. Even Prince Charming will leave his underwear on the floor. Personally, I think this game is more realistic to real life relationships. All the boys have flaws, and they all have more to them and reasons why they are the way they are that aren't immediately obvious. The MC, too, has lots of flaws herself. They all banter with each other, which keeps the play funny and entertaining. What I love is that the MC accepts and loves the boys as they are (though she does tease them about their wardrobe). The boys, too, while annoyed by the MC and resistant to her at first, all accept and love her as she is. The only part I don't like is keeping up with the cliques, but luckily cheat codes stop you from having to worry about it. Relationships are all about compromise. They're not perfect. Everyone will be annoyed with their partner at one point or another, but you talk through things and move on. I feel like this game prepares the players for real life relationships..
